SAMPLE CUE CARD

Describe a successful person you know.

Describe a successful person you know.

You should say:

- who the person is
- how you know them
- what they have achieved
- why you consider them successful

My 1-minute notes

- uncle Bakhtiyor • IT company • Tashkent
- father's younger brother • office visits
- tiny room • two old computers • 200 staff
- regarded as top developer • banks in Asia
- strong work ethic • calculated risks
- keeps feet on the ground • free coding courses

SAMPLE ANSWER • BAND 8

I • Intro (who)	I'd like to talk about my uncle Bakhtiyor, whom I consider the most successful person I know. He's the founder of a software company in Tashkent, and he's a truly self-made man.
P • How I know him	As for how I know him, he's my father's younger brother, so I've seen him at every family gathering since I was little. He often let me visit his office during school holidays, which is probably why I became interested in technology.
P • What he achieved	When it comes to his achievements, he built the business from scratch. He started in a tiny rented room with two old computers, and now his company employs over two hundred people and works with banks across Central Asia. He is widely regarded as one of the best developers in the country, and he's made a name for himself abroad too. Not until he was thirty-five did he take a proper salary, because he reinvested every som.
E • Reason 1	The first reason I see him as successful is his strong work ethic. No sooner had he finished one project than he started the next, and he took calculated risks instead of gambling blindly. That kind of discipline has really paid off.
E • Reason 2	On top of that, success hasn't changed him. He keeps his feet on the ground and likes to give back to the community by funding free coding courses for teenagers. What sets him apart is that he measures success by how many people he helps, not by money.
W • Wrap-up	So, all in all, my uncle shows that persistence pays off. Having watched him reap the rewards of years of effort, I'm convinced that real success comes from patience and character, not luck.
