SAMPLE CUE CARD

Describe a friend you get on well with.

Describe a friend you get on well with.

You should say:

- who the friend is
- how you met
- what you do together
- why you get on well

- Bekzod • best friend • engineer • down-to-earth

- weekends • hang out in park • plov • chess
- long phone calls • hiking trips • catch up
- same sense of humour • see eye to eye • honest

SAMPLE ANSWER • BAND 8

I • Intro (who)	I'd like to talk about my best friend, Bekzod, who I've known for about eight years now. He works as a software engineer in Tashkent, and he is one of the most down-to-earth people I've ever met.
P • How you met	As for how we met, it was at a language course just before university. I didn't know anybody, so I struck up a conversation with the boy next to me, and we realised within minutes that we both adored football. We hit it off straight away, and by the end of the first week we were saving each other seats in class.
P • What you do together	When it comes to what we do together, we hang out almost every weekend. We usually grab a bite at a little place near the park, play chess for hours and, of course, argue about football. Whenever he's busy with work, we still catch up on the phone, and during holidays we go hiking in the mountains.
E • Reason 1	The first reason we get on so well is that we have a lot in common. Not only does he share my passion for sport, but he also has the same sense of humour as me, so we can laugh at the silliest things for ages.
E • Reason 2	On top of that, I can always count on him. When my father was ill two years ago, Bekzod stood by me and even drove me to the hospital at midnight. Had he not been there, I would have felt completely lost.
W • Wrap-up	So, all in all, he is the kind of person who makes life better just by being around, and I feel incredibly lucky to have a friend like him. I truly hope we'll stay close through thick and thin.
