SAMPLE CUE CARD

Describe a healthy activity you enjoy.

Describe a healthy activity you enjoy.

You should say:

- what it is
- how often you do it
- who you do it with
- why it is healthy

My 1-minute notes

- jogging • park • early morning
- three times a week • Mustaqillik Square area • forty minutes
- cousin Aziz • friendly competition • chat
- clear my head • boost energy • sleep well
- heart health • lower stress • stamina
- habit • routine • hope to keep going

SAMPLE ANSWER • BAND 8

I • Intro (what)	I'd like to talk about jogging, which has become my favourite healthy activity over the past two years. I used to be a complete couch potato, but now I go for a run around the park near my house, and honestly I can't imagine my week without it.
P • How often I do it	As for how often, I go three times a week, usually at six in the morning before the streets get busy. Each session lasts about forty minutes. It's hard to leave a warm bed, but the moment I'm outside and the cool air hits my face, I'm glad I did.
P • Who I do it with	When it comes to company, I run with my cousin Aziz. If it weren't for him, I would quit within a week, because he texts me every night to confirm our plan. We keep a friendly competition about who runs further, and we chat about everything, from football to exams, which makes the time fly.
E • Reason 1 (mind)	The first reason it's healthy is that it clears my head. It is jogging that keeps me calm during busy weeks, and on days when I'm stressed, I come back feeling light and positive. On top of that, I sleep like a log, which affects my mood the next day.
E • Reason 2 (body)	Secondly, it's brilliant for my body. Having built up my stamina gradually, I can now run five kilometres without stopping, which would have been impossible before. It also lowers the risk of heart problems, which matters because my father has high blood pressure.
W • Wrap-up	So, all in all, jogging gives me energy, a clear mind and a great friendship. Rarely do I regret getting up early, and I hope to keep this habit for the rest of my life, maybe even running a half marathon one day.
