SAMPLE CUE CARD

Describe a childhood memory.

Describe a childhood memory.

You should say:

- what happened
- how old you were
- who was there
- why you remember it

My 1-minute notes

- learning to ride a bike • age seven • summer
- grandfather's courtyard • cousins watching • old blue bike
- scraped my knees • burst into tears • he held the seat
- never gave up • on top of the world • until sunset
- reasons: a sense of security • lasting impression • looked up to him
- wrap-up: fond memories • shaped my character • If only I had thanked him

SAMPLE ANSWER • BAND 8

I • Intro (age)	I'd like to talk about a vivid memory from the summer when I was seven, the day I finally learnt to ride a bike. It happened in my grandfather's courtyard in Bukhara, and it is still etched in my memory as if it were yesterday.
P • What happened	The bike was an old blue one that belonged to my cousin, and it was far too big for me. I climbed on, wobbled for five metres and crashed straight into the grapevine. I scraped my knees and burst into tears, but I didn't want to give up. I tried again and again until the sun went down, and no sooner had I stopped crying than I was back on the seat.
P • Who was there	My grandfather and two cousins were there. It was my grandfather who ran behind me, holding the back of the seat, and he kept saying that he would never let go. Of course, he let go after a while without telling me, and when I realised that I was riding alone, I felt on top of the world.
E • Reason 1	The first reason I remember it so well is that it gave me a sense of security. What I remember most is his calm voice behind me. Knowing that someone strong was ready to catch me made me brave enough to try.
E • Reason 2	On top of that, it left a lasting impression on me. I have always looked up to my grandfather, and that afternoon showed me what patience really means. Were it not for that lesson, I think I would have given up on many difficult things later in life.
W • Wrap-up	So, looking back on it, I have fond memories of that day, and I believe it shaped my character. If only I had thanked him properly back then, but I hope he knew how much it meant to me.
